## VOLUNTEER WITH US

We are the LIFESAVING SOCIETY – a national, volunteer organization and registered charity which works to prevent drowning and water-related injuries through our training programs, Water Smart public education and aquatic safety management services.

## WHY VOLUNTEER?

Volunteering can help you develop skills in a practical way, giving you real-life experiences that provide opportunities for personal growth, as well as a chance to meet new people and have fun. LIFESAVING SOCIETY volunteers however, often find that they get much more out of their volunteer experience, because of the nature of our work. Whether its volunteering as part of a public education initiative, or as a team member working to create a new training program, everything we do is tied to our mission – to prevent drowning and water-related incidents – our volunteer often find themselves working on projects that are designed to have a lasting impact on people's lives.

## WHAT DO WE NEED?

We need volunteers who are committed to our mission and who are willing to help us meet it. Some of our projects run year-round, while others are of a more limited duration. Because of this, some volunteer opportunities require a longer time commitment than others. And while we're sometimes on the lookout for volunteers who have specific skills, at other times, all you need is a basic knowledge of the Society and a willingness to work hard. Whatever your skills, experience or training however, its likely that we can place you in a volunteer position that 'fits' your needs and expectations and that gets us the results we're look for.

If you're interested in knowing more about volunteering with the Lifesaving Society, call us.

We'd love to hear from you!
